

Statement: 2nd Amendment vs 5th Column

The Bill of Rights provides another avenue of checks and balances. It is the fourth branch of government, the People (as in, "We the People). That fourth branch authorization is the [Second Amendment](#). Together with the American [Oath of Allegiance](#), we come to the conclusion that the American Citizen must act to protect the country from enemies foreign and domestic and to protect the [Constitution of the United States of America](#).

We shall not misinterpret the reason for the 2nd Amendment. The 2nd Amendment is for love of country, not love of guns. For the defense of our country within the confines of a regulated militia is there a provision - "to keep and bear arms".

"A well regulated Militia, being necessary to the security of a free State" once again has been misinterpreted. Any simple internet search on "militia" will point to the majority of militias which are advocates of a "[Fifth Column](#)", that is: A group of secret sympathizers or supporters of an enemy that engage in espionage or sabotage within defense lines or national borders. This means that many of these Fifth Column militias should be targets of our "Regulated Militia".

Unfortunately, Donald Trump is the de facto leader of the Fifth Column. He was made president by the mechanizations of the Fifth Column by pandering to the issues of defeated opposition groups, to re-litigate issues which were settled in the American Civil War, World War II and the Cold War and by seeking electoral advantage from hostile foreign interests. He has consistently attacked the American Constitution which is the President's supreme duty to defend. He has violated his oath of office by giving aid and comfort to enemies, and has done his best to undermine the rule of law, and has engaged in espionage and sabotage to the benefit of foreign nations.

If ever there was a time for the regulated militia to rise in defense of the United States of America, that time is NOW!
